
Name & Email fields not showing up

Posted by a2zcs - 2020/04/07 00:19

Can't seem to get the fields for name and email to show at the top of the quizzes even with the anonymous access option set to No.

Also the radio buttons for Single Questions are not showing.

What am I missing or doing wrong?

Hello,

This problem with site template styles. It contains global style for radio buttons and it hides them. Add the following CSS rule to a site template CSS file to fix the problem:

```
#ariQuizContainer input {visibility: visible}
```

Hello,

Open "Access & Security" tab on quiz settings page and disable "Start immediately" parameter.
