
Add Questions Pool Searchable

Posted by enginbasturk61 - 2020/04/11 01:56

Hi!

When we add bank category to any quiz from question category, there are two option.

1. Bank Category
2. Question Count

Can the dropdown list for adding bankcategory include search. When there are many bank categories, it is not easy to find it. But if we can search a word from it we can easy find it..

For this, which files or files needs to be modified...

Can you please help me and save my time?
