
Not showing picture when finish the quiz

Posted by funlife - 2020/04/17 12:37

Hello,

I have a problem with your quiz creator.

At the result page it doesn't always show the picture of personality on final result page, even if the picture is set.

Can you fix this bug?

You can find my quiz here:

Thank you,

Hello,

What browser do you use? We checked it on our side in Google Chrome and it works fine:
