## Font size of results

Posted by MaxInd - 2020/05/10 13:47

---

Hello Ari Quiz,

I have a question about your text editor in the "results" section of the quizzes. Is it possible to increase the font size of the text ? There is a paragraph tab that seems to allow it, but when the result page is displayed, the title is still as small as ever.

Thank you for your help.

Hello,

Open "ARI Stream Quiz -> Settings -> Advanced" page and populate "Custom CSS styles" parameter with the following code:

```
.asq-theme.asq-theme-buzzfeed h1, .asq-theme.asq-theme-buzzfeed h1 * {font-size:2.25rem}  
.asq-theme.asq-theme-buzzfeed h2, .asq-theme.asq-theme-buzzfeed h2 * {font-size:2rem}  
.asq-theme.asq-theme-buzzfeed h3, .asq-theme.asq-theme-buzzfeed h3 * {font-size:1.75rem}
```

Regards,  
ARI Soft
