## upload user id and answers to generate quiz result

Posted by blues - 2020/07/20 13:37

---

Hello,

when I created a quiz, how can I upload user id and related answers for this quiz to generate a quiz result?

I know current version not support, can you let me know how can I do or help to customize this feature?

thanks

Hello,

It requires modification of the extension. Currently we don't offer a service for customization so you can hire a freelance developer to implement this feature.

Regards,  
ARI Soft
