ni supoit,
We are using the version of "ARI Quiz" v. 3.9.8. After updating the Joomla CMS to version 3.9.19, the Ari Quiz started showing the following error: This page uses the non-standard "zoom" property. consider using calc () in the relevant property values or using "tranform" in Question-20-652ccc-ddfa0ff94b6e43c18543cf0926
Thanks,

Hello,
Could you provide a link to a page where the problem occurs? It looks like a warning in browser's console, not server side error or something like this.
Regards, ARI Soft

Hello,
With the link and access I gave to support, did you analyze the problem? We need a position.
Thank you
