
Error after updating joomla

Posted by enginbasturk61 - 2020/09/09 13:36

I got this error when I updated my joomla to latest version.

public_html/administrator/components/com_ariquiz/controllers/questioncategories.php on line 33 and at least 2 expected

Can you help me?

Hello,

Could you provide a link to a page where the problem occurs and a temporary access to your J! backend by email?

Regards,
ARI Soft

Hi!

Are you going to have a look to the problem?

I have emailed you all you need

I just figured it out by changing my php version.

It works well with PHP 7.0 (ea-php74) and gives error with PHP 7.4 (ea-php74)
