
How can we add difficult level for a quiz?

Posted by blues - 2020/09/15 01:33

Hi Team,

How can we add a difficult value such as (Low/Medium/High) for a quiz?

Thanks
Blues

Hello,

It is not possible in scope of one quiz. 3 quizzes can be created and use can select a quiz with appropriate difficulty level.

Regards,
ARI Soft

Thanks for quick reply.

Can you explain further how to identify the difficult level in database in your mentioned solution? just via the quiz name?
