
Question loading very slowly

Posted by enginbasturk61 - 2020/09/15 03:57

When we set one question for page, it's loading next questions very slowly as compare to other quiz software I have ever seen.

Is there any way to increase the speed?

=====

Hello,

The extension loads each question page via AJAX to avoid ability to see all questions and increase security.

Possible solution is showing several questions per page.

Regards,
ARI Soft
