
Search box for fro down lists

Posted by enginbasturk61 - 2020/09/15 15:00

I would like to add search box for drop down lists. There are many quizzes in quiz page or many users for Quiz Results.

It will make my work easy if there is search box in drop down lists.

Which files do I need to modify? Is there any short code to do it?

See the attached image
