
How Can we show Quiz result in text template?

Posted by blues - 2020/09/19 07:27

Hi Team,

The {\$ResultsLink} in text template doesn't cover the questions and answers list like backend quized results details, how can we show it to a user?

Thanks

=====

Hello,

If you want to show detailed results at the end of quiz then open "Results settings" tab o quiz settings page and set "Show detailed results" parameter to "Always".

Regards,
ARI Soft
