## Different question time limit for each question

Posted by kouros - 2020/09/26 09:32

---

Hi.

Is it possible to set up a different time limit for each question ?

I would like to set up a question time limit considering question difficulty.

If is not possible now, can you implement this option in a near future ?

Thank you very much (sorry for my english i'm french : ) )

Nicolas

Hello,

The extension doesn't support ability to set question time limit in question settings, but it is possible to define it in quiz settings or in question category settings. You can create different question categories for difficulty levels and define the necessary time limit in question category settings.

Regards,

ARI Soft
