The AriQuiz project is dead

Posted by stepan39 - 2021/03/17 10:54

_____

Since the development of the project has been stopped, I am looking towards migration to other similar components.
The database is quite large, so there is no way to start from scratch.
Does anyone have experience migrating from AriQuiz and where?

_____

Is the development really stopped? Ari Stream Quiz for Wordpress is very much alive.
I understood AriQuiz for Joomla will be further developed after Joomla 4?
