## Quiz Result the mistake Calculates 0%

Posted by barend - 2021/04/06 20:25

---

After completing the quiz, it calculates incorrectly.

When out of 3 questions, all 3 questions are answered incorrectly, Must display -100% ØÆ

BUT! it shows 0% .

Where(in code files) can I change the calculation method???

Hello,

Do you want to give a penalty for an incorrect answer? If yes then check "Penalty" option in question settings. The plugin doesn't calculate negative percent.

yes i want to give a penalty for an incorrect answer but we need to negative percent.  
for example:

From 10 Question:

1 correct answer  
5 without answer  
4 incorrect answer

We must have : -3.33 %  
Not 0%

Where can we modify and edit these calculations in the Extention?  
in plugin? or Component?

I checked a lot but could not find it.  
Please Help me.  
Thanks
