Results Page to include email as search option
Posted by Kim Tabori - 2021/04/26 17:53

_____

For my new platform I don't want to manually allocate the exams to each student so I am looking at the option where they click the link and fill in their name and emails address.

Unfortunately I can only search by Quiz or User on the ARI Results platform, is it possible to include E-mail as an option please.

_____

Hello,

It requires custom modification of the extension. Currently we don't offer a service for custom development so you can hire a developer on UpWork or similar resource.

Regards,
ARI Soft
