
Access and Security - Reset attempt count for non

Posted by Kim Tabori - 2021/05/12 09:33

Hello,

Reset attempt for non assigned users:

I would like my students to access their exams using a link instead of allocating the exam to them. I would like them to only take the quiz once. I have tried setting the Reset attempt count to 1 week but it still allows the person to take it again, please could you assist

Hello,

Have you set "Attempt count" parameter to 1, but registered users can complete the quiz and start it again?

Regards,
ARI Soft

thanks I have changed this to 1 and it stops me from taking the quiz again. However will it allow me to take the quiz again in a weeks time? or not?

If "Reset attempt count" parameter is set to 1 week then it will be possible to use one more attempt next Monday.
