
Switch from Joomla to Wordpress

Posted by Kim Tabori - 2021/06/24 06:13

Hello

I am considering switching my website from joomla to wordpressw.

Would I be able to transfer all my files (quizzes) across without having to recapture them?

Does wordpress have a more classic look (similar to joomla) as a option? we are wanting a more professional look as the demo for wordpress only shows a "fun" type of quiz

thanks in advance

=====

Hello,

"ARI Stream Quiz" for WordPres and "ARI Quiz" for Joomla! are two different extensions. It is not possible to migrate quizzes from "ARI Quiz" to "ARI Stream Quiz".

Regards,
ARI Soft
