## Community Builder Tab - How?

Posted by thank\_you\_ari - 2021/07/15 22:45

---

In your marketing it says:

"can show user quizzes results in Community Builder user profile with help File doesn't exists"

I don't understand what this means. What is "help File doesn't exists"?

There is no info in the documentation on how to enable the CB tab. And nothing on the Forum.

Please help.

Thanks.

Hello,

Sorry, download links were broken after our migration to new hosting. We fixed them.

Regards,

ARI Soft

I see what you mean. The link (on your website) to the plugin was broken.

I downloaded the plugin and it works perfectly.

Thank you.

Thank you.

Can you answer my other post about CB Substitutions? Is it possible to include CB Substitutions into the Text Template (so it shows on certificate and results page)?

Thanks.

Sorry, but the extension doesn't support this feature.

Regards,

ARI Soft
