## Quizzes Loading very slow

Posted by Kim Tabori - 2021/07/18 14:38

---

Hello

I have upgraded and streamlined my website significantly yet the quizzes are still loading very slowly and my students are struggling to complete them.

Is there anything that we can do to fix this please

Hello,

Ask your hosting support to check slow database queries.

Regards,

MySQL database can log slow queries so ask your support to check this log.
