Username Field in exporting and export all records
Posted by sidhashem - 2021/08/02 16:28
_____

Hi, when I export quiz results to csv or xls the Username column would not be in exported file. And just the shown results per page would be exported.
How can I export records of the quiz with email column.

Hello,

Could you send your order number by email?

Regards,
ARI Soft
