## Sorting Quiz Questions with ID

Posted by enginbasturk61 - 2021/09/21 15:58

---

How can we sort quiz question with ID when quiz is not randomized.

I have selected "random questions" no and questions does not come out according to ID

Can you help me with this?

Which files need to be customized?

Hello,

The extension uses "Order" value (see "Order" column on quiz questions page) to sort questions when "Random questions" option is disabled. It doesn't use question IDs.
