
Changelog ARI Quiz v.3.9.21

Posted by stepan39 - 2021/11/10 06:32

Hello!

What are the changes in the version 3.9.21?

My current version 3.9.20.

I can't update, because I heavily customized the component.

What files should I edit or replace to?

Thanks.

Hello,

It only changes 'Access' field type in #__arquiz table:

`Access` int(10) NOT NULL
