Hi,

How to edit a page with a ARI Quiz send a notification or message. For example, see the attachment.  
The think is to see a lot off modules in this ARI Quiz Page (Layout). (Menu, Slideshow, Page Countent, Footer, etc.)

Thank you!

Hello,

See /components/com\_ariquiz/views/message/tmpl/default.php template file.

BTW, the extension doesn't hide any elements for this page.

Regards,  
ARI Soft
