License Key

Posted by glenanthony - 2010/09/06 21:37

_____

I just upgraded from the lite version and none of the numbers that I received when I checked out work as a license key.

Where would I find this key?

_____

I figured out how to get license key, but the address I am using for development and the end result address will be slightly different. Will this create a problem when I go live?

Also I noticed I get two license keys, but I burned one trying to figure out how to use the system. Can I get the other one back?

Thanks

_____

Hello,

We can provide prolonged license key(s) for development server only say for what domain name(s) provide it. Production license key can be generated when production site is ready.

PS: You can provide information by email.

Regards,
ARI Soft
