_____

Hi, everyone!
Đ¡ouple days ago when I was need to create new question in the Question bank section of ARI QUIZ I've next mistake:
An error has been detected. 0 Call to a member function getName() on bool

What's the problem? How can I fix it? I've been more testing for restore and if restore old database mysql, then this mistake no more, but I've more new datas in new database. Help me! How can I fix it?

Best regards, Yerlan

Hello,

At least it requires to update the component to latest version.

PS: Send your order number by email please.

Regards,
ARI Soft
