
Adjust font on front view of quiz

Posted by Kim Tabori - 2023/07/12 12:11

Please advise how I can adjust the font sizes and font types on the font page, see attached https://www.ari-soft.com/images/fbfiles/images/Ariquiz_font_4.jpg

Hello,

Could you provide link to the page and specify for what elements you want to adjust font properties (only form or other elements)?

Regards,
ARI Soft

Yes sure, I have sent you the welcome email and access to your Shipping Terminology course.

Please click the Assessments tab and try to complete the iframe online exam.

Regards Kim

Use the following CSS rules to adjust font-size/color in the form:

```
#ariQuizContainer FIELDSET.ari-quiz-guest-form LEGEND {  
    font-size: 30px;  
    color: green;  
}  
  
#ariQuizContainer FIELDSET.ari-quiz-guest-form FIELDSET.adminform LABEL {  
    font-size: 20px;  
    color: red;  
}
```

The code which is used to embed the quiz is still incorrect:

<https://www.ari-soft.com/images/fbfiles/images/embed.jpg>

You can open HTML page source and check it.

Regards,
ARI Soft

I only updated the Shipping Terminology - Part One and Part Two (week 1 and week 2 Assessments) on this course to see that is works.

I have now updated the Diploma Shipping Terminology with the correct code.

I still get the error message when completing the exam however...

I found that if I click the back button on my browser the exam results show and the backed results pull through.

ps Firefox still has no problem showing the results...only a chrome issue from what I can see.
