
questions not loading

Posted by Marsm - 2023/08/21 08:00

Hi,

I am using AriQuiz 3.10.1, Joomla 4.3.3 and php 7.4.

When I start a quiz the first question is not loading, see screen.
Any idea?

Hello,

Could you provide a link to a page where the problem occurs? You can send it by email.

Regards,
ARI Soft

It seems 301 redirect is configured incorrectly in web server config. It should be only for GET requests.

As a temporary solution you can replace the following code in `/views/question/tmpl/default.php` file:

```
baseUrl: '/index.php',
```

with the following one:

```
baseUrl: '/',
```

but with the next update it will be reverted back.

Regards,
ARI Soft

Problem solved. It was a SEO component that caused the 301 redirect.
