Problem

Posted by andrej - 2023/08/23 13:26

_____

Hi.

After completing the quiz once in the browser, it cannot be restarted in the same browser.

my page:

https://brd.szkola.pl/index.php/component/ariquiz/Quiz/1-Znakiostrzegawcze?task=edit

I turned off and on the computer, but it did not help - after displaying the test once, it is unavailable.

One more thing - the quiz did not save the test results. I solved it 4 times - once in each browser.

Regards
Andrzej

_____

Hello,

Could you provide a temporary access to admin part of your site by email so we can investigate the issue? Unfortunately we can't reproduce it on our test site.

Regards,
ARI Soft

_____

It fixed in v. 3.10.4.

Regards,
ARI Soft
