save and close buttons in backend do not work
Posted by Marsm - 2023/08/29 08:43
_____

in backend, save and close buttons do not work for quiz, quiz categories and others.
Do you have any idea what can cause this problem?

I use Joomla 4.3.4, Ariquiz 3.10.4 and php 8.1

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem? We checked it with the same configuration on our test server and the described functionalities work fine.

Regards,
ARI Soft

_____

Solved! I did a reinstall which solved the problem. Probably something went wrong with the first install.
Thanks for your quick repons!

Probably a cache problem. In any case if the problem appears again, let us know.

Close button ok, but now I have a problem with save button. It gives this error: 0 Class 'JArrayHelper' not found.
Changed tot php 7.4 without effect.
