## Quiz Lite?

Hello,

I'm looking to upgrade our Quiz component because we've just upgraded our site to J4 - the old one doesn't work with J4. I thought I read that you had a Quiz Lite one could download to evaluate the software. Is that available?

Best regards,  
-Derek

Hello,

"ARI Quiz" is compatible with Joomla! 4. Unfortunately "ARI Quiz Lite" is only for J! 3.

You can see "ARI Quiz" in action on demo site.

Thank you for the quick reply. What is the refund policy if we purchase and we find that it doesn't work for us?
