Hi,

when I finished a quiz I get this error:

1264 Out of range value for column 'ElapsedTime' at row 1

When starting this quiz again same error, quiz doesn't start.

Do you have any idea what can cause this problem?

Yes, ARI Quiz v. 3.10.8, php 7.4 and Joomla 4.3.4

I encounter this problem only with one specific quiz. Other quizzes are ok.

Could you provide a temporary access to your J! backend by email and link to quiz where the problem occurs?
