Redirect page when quiz complete

Posted by timchesonis - 2009/01/03 02:56

_____

Our students take the quiz based a link sent via e-mail. Once they log in, and the test is complete, how do I redirect them to the page that I want them to go to?

OR . . .

If I create a page within our site, where they can then click on a link to take them to the quiz, once they finish the quiz, will they return to that page?

_____

Hello,

Currently there is no possibility to redirect user anter passing quiz. However you can add links to be displayed in template shown upon completion of quiz. Or you can order custom development - if you are interested please send us detailed requirements and we will estimate.

After quiz completion users are shown finish screen with result (as you define in quiz configuration).

Regards,
ARI Soft
