
a little hard for the new user

Posted by tatazhang - 2009/01/06 04:49

I already installed temporarily version about ari quiz, follow the demo, still feel hard to start.

Is there have a demo with full complete questions and setting inside? we just copy all the steps to ours, then just modify the question and categories to our need, that will real easy let new user faster understanding the system.

Thanks

We've sent the letter to your mailbox that contains steps to create the stuff and sql file for demo.

There is also help file for ARI Quiz component.

Regards,
ARI Soft
