
plugin integration

Posted by caloche - 2010/09/24 19:08

Hello again,

I'm trying to put audio on a question, and it does not work with my usual tag : {play}sound{/play} that i use with josdeplayer.

So i tried with allvideo as you suggest in the faq, but still.. no way to make it works..
I checked the Parse Plugin Tag.

any idea?

PS : I'm using the pro version

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue?

Regards,
ARI Soft
