I've got this error
"Warning:
fopen(/var/www/conoscilacostituzione.it/administrator/components/com_ariquiz/cache/files/i18n/lbackend/en.php) : failed
to open stream: Permission denied in
/var/www/conoscilacostituzione.it/administrator/components/com_ariquiz/kernel/I18N/class.I18N.php(18) : eval()'d code
on line 1"

on my website www.conoscilacostituzione.it

what can I do?
thanks

Hello,

Check that the following folders have writable permissions:

/administrator/components/com_ariquiz/cache/files/i18n/lbackend/

/administrator/components/com_ariquiz/cache/files/i18n/lfrontend/

If it doesn't help, provide temporary access to your Joomla! backend by email that we can investigate this issue.

Regards,
ARI Soft
