
e mail results

Posted by kitapokuyorum - 2010/10/19 18:30

Hello,

is it possible for ariquiz to send results to the user email without asking to the user.it is like an option in backend to send result instead of button click by user in frontend.

thanks,

=====

Hello,

Currently it's impossible.

Regards,
ARI Soft

Is it possible to send their test results to an email other than the user in the ARI Quiz not the ARI Quiz Lite version?

Hello,

"ARI Quiz" can send results automatically to quiz taker, to specific email(s) and to users from specific user group(s). "ARI Quiz Lite" can send results automatically only to specific email(s).

Regards,
ARI Soft
