## CSS in the component for RTL arabic website

Posted by elmasri - 2010/10/20 12:07

---

Hello

what css files do i need to changes to set RTL direction,  
mainly in the Quiz component.

i tries some CSS files but they are to many..

thanks  
adel

---

Hello,

The component use the following CSS file on frontend:

/components/com\_ariquiz/css/default.css

Regards,  
ARI Soft

## Re:CSS in the component for RTL arabic website

Posted by elmasri - 2010/10/22 11:51

---

Thanks you for your answer, I tried to adjust the (com\_ariquiz/css/default.css)for arabic RTL.

It helped but not all issues are solved.

please help me to find out how and where else to correct the formating for arabic. the attached screenshot errors should show clear my problems:

I face the problem in both URLs

1- Quiz frontpage

2- Question frontpage

please see attachement

thanks for your support  
adel

## Re:CSS in the component for RTL arabic website

Posted by admin - 2010/10/22 16:06

---

Remove the following CSS property from ".ariQuizHeaderTable" which located in default.css file lines #1 - 7:

float: right;

Regards,  
ARI Soft

=====

## Re:CSS in the component for RTL arabic website

Posted by elmasri - 2010/10/22 16:42

---

Thanks for your support

but i am sorry it did not help,  
i removed the first 7 lines in default.css  
but it did not work out.  
here is the new code please see the first 14 lines

-----

```
.ariQuizHeaderInfo
{
width: 100%;
font-size: 100%;
text-align: right;
float: right;
}

.ariQuizProgressWrap
{
position: relative;
width: 100px;
border: 1px solid black;
}
```

-----

thanks for reply

=====

---

## Re:CSS in the component for RTL arabic website

Posted by admin - 2010/10/22 17:06

---

No need to remove all 7 lines. Just remove "float: right" property, it will look like:

```
.ariQuizHeaderInfo
{
width: 100%;
font-size: 100%;
text-align: right;
}
```

instead of:

```
.ariQuizHeaderInfo
{
width: 100%;
font-size: 100%;
text-align: right;
float: right;
}
```

---

THanks again,

i did exactly as you said but still the same result.. can i just pass you the default.css and please have a look to it?? that might be the best.

thanks for reply

---

Hello,

Could you provide temporary access to your Joomla! backend by email that we can modify default.css file?

Regards,  
ARI Soft

---

## Re:CSS in the component for RTL arabic website

Posted by elmasri - 2010/10/25 12:52

---

I send you the needed infos per e.mail

thanks

---

## Re:CSS in the component for RTL arabic website

Posted by admin - 2010/10/26 12:16

---

Try now please. BTW, 'Continue' button didn't show on quiz description page because it seems you used copy-paste method when inserted quiz description and pasted text from MS Word document. In this case WYSIWYG editor adds a lot of additional code which can brake correct page layout. We cleaned quiz description that it's shown correctly.

Regards,  
ARI Soft

---

## Re:CSS in the component for RTL arabic website

Posted by elmasri - 2010/10/26 13:57

---

Thank you and thanks to all ari- support team for these great support and prompt replies.  
I am really glad that i bought this Quiz component..

i went through the quiz steps and mostly great  
just few point if you still can support me that will be great..

please see attached zip file..  
i can even send it per e.mail

---

thanks gain for all

adel [http://www.ari-soft.com/images/fbfiles/files/snaglist\\_ari\\_quiz\\_arabic\\_26.zip](http://www.ari-soft.com/images/fbfiles/files/snaglist_ari_quiz_arabic_26.zip)

## Re:CSS in the component for RTL arabic website

Posted by elmasri - 2010/10/27 11:28

---

Thanks again for your support..

I am sorry but the only thing i see it was corrected is the the (Show Correct Answer) which is great..

please let me know if i can try by my self to solve the other issues, on which files i have work??

if it is a matter of time for you i still can wait, because it is very important for us to solve those Issues

thanks again for your feedback

adel

## Re:CSS in the component for RTL arabic website

Posted by admin - 2010/10/27 11:32

---

Problem with statistics should be fixed too. Could you specify what version of IE you use?

PS: /components/com\_ariquiz/view/question.html.php file can be edited that change question layout.

Regards,  
ARI Soft

## Re:CSS in the component for RTL arabic website

Posted by elmasri - 2010/10/27 12:11

---

Thanks..

one step further.. :) the positioning now is ok,  
but still what is missing in IE is the question and subject discription (Question label)

see screenshot below  
thanks  
adel

[http://www.ari-soft.com/images/fbfiles/images/question\\_text\\_and\\_discription\\_missing\\_IE.jpg](http://www.ari-soft.com/images/fbfiles/images/question_text_and_discription_missing_IE.jpg)

---

## Re:CSS in the component for RTL arabic website

Posted by admin - 2010/10/27 12:45

This problem with 'Page Peel Banner' module. It can't load necessary flash file due to restriction configuration of your server. You can check web server log, it will contain 403 HTTP error. Disable this module or configure server that this module can load necessary flash objects.

## Re:CSS in the component for RTL arabic website

Posted by elmasri - 2010/10/27 12:56

Thanks

that was the reason..  
i am fighting now to find out how to make the text area wider..  
this is all what i need for the moment, i dont need to move or reposition any blocks

thanks

---

## Re:CSS in the component for RTL arabic website

Posted by admin - 2010/10/27 13:06

Is it normal if it will look like on screenshot below?

<http://www.ari-soft.com/images/fbfiles/images/layout.jpg>

ARI Soft

---

## Re:CSS in the component for RTL arabic website

Posted by elmasri - 2010/10/27 13:13

Oh yes,  
that is great please correct it as your last screenshot,,

i will be happy with that, but now we dont have te 4 boxes on the top left side,, i have now idea what for those blocks..

but the layout you send on the screenshot is great..  
could please make it??

thanks

adel

## Re:CSS in the component for RTL arabic website

Posted by elmasri - 2010/10/28 07:22

---

I have two questions.

1- could you please tell me what are all files you have updated for arabic language? i have another licence from ARI Quiz for another website called nlschool.org and I want to try by myself to adjust for arabic language..

2- I baught this licence for miraclechannel.com on the 19. october 2010.. but still did not receive the production License Key.  
when should i receive it??

thanks  
adel

---

## Re:CSS in the component for RTL arabic website

Posted by admin - 2010/10/28 07:29

---

1. We have modified the following files:

/components/com\_arquiz/css/default.css

/components/com\_arquiz/view/question.html.php

---

and add the following CSS rules to site template because default site template styles causes problem in IE 8+:

this is site template specific CSS rules, if you use another template on the second site, this isn't require.

2. Production license key can be generated in Member Area. Check that you logged on our site under correct account because you have two accounts.

Regards,  
ARI Soft

## Learning path and user access

Posted by elmasri - 2010/10/28 20:07

---

I hope i am not bothering you..  
but i tried my best before i write you now

-----

Section created:  
new life school

category created and assignend to the section  
new life school part 1 (cat)  
new life school part 2 (cat)

created content articles and assigned articles to the section and categories

Basic question >> content article  
[http://www.miraclechannel.com/index.php?option=com\\_content&view=article&id=290](http://www.miraclechannel.com/index.php?option=com_content&view=article&id=290)

Advanced question >> content article  
[http://www.miraclechannel.com/index.php?option=com\\_content&view=article&id=291](http://www.miraclechannel.com/index.php?option=com_content&view=article&id=291)

-----

Quizzes component:  
created quizzes part 1 and part 2  
assigned the quiz categories accordingly

-----

Plug-ins:  
ARI Quiz Learning Path

---

Quiz category (Basic) assigned to content category (new life school part 1)  
Quiz category (Advanced) assigned to content category (new life school part 2)

-----

i am not sure what i am doing wrong  
after i register i still can go through part 2 (Advanced) without finishing part 1 (Basic)  
i cant figure out where my problem is

please advice

thanks  
adel

=====

## Re:Learning path and user access

Posted by admin - 2010/10/29 11:11

---

At first fill free to ask any questions about the extension. Regarding your question, now it should work fine. The problem occurred due to you selected "Basic" and "Advanced" quiz categories in different learning paths (in #1 and #2). We selected it in learning path #1 and now it should work.

Regards,  
ARI Soft

=====

## Re:Learning path and user access

Posted by elmasri - 2010/10/29 12:35

---

Thank you so mcuh..  
It works great because of your prompt support

This ARI QUIZ component is very good also The plug in (ARI Quiz Learning Path) just made the Quiz component very special and useful.

thanks again  
adel
