Quiz Results Question

Posted by cimidn - 2008/07/26 11:21

Hi all -

Is there a way to show a different result based on the score?

For example:

0 - 10 correct answers means your knowledge is below average

- 10 20 correct answers means your knowledge is average
- 20 30 correct answers means your knowledge is advanced

Thanks!:)

Hello,

There is no exactly such functionality now. You can try to change the result text template for something similar or order custom development. If you are interested please write us a letter.

Regards, ARI Soft

This is a good idea. Developers should consider it.

Re:Quiz Results Question Posted by admin - 2008/08/15 10:14

We will think about this.

Thanks!
