_____

Hello!

I want to decrease working load to MySQL. Can I don€™t save quiz results?

Best regards.

Hello,

You can create cron task and execute the following SQL query that clear results for all previous days:

DELETE SI,S FROM jos_ariquizstatisticsinfo SI LEFT JOIN jos_ariquizstatistics S
  ON SI.StatisticsInfoId = S.StatisticsInfoId
WHERE
  SI.Status = "Finished" AND SI.EndDate IS NOT NULL AND DATEDIFF(UTC_DATE(), SI.EndDate) >= 1

Hello

You have misunderstood me. I want to decrease requests to MySQL!!! I wish not to save result in MySQL! Is it possible?

Best regards.

_____

No, this is impossible. This data is used during a quiz and when showing quiz final page.

I used this query to delete tests for all previous days from quiz lite

DELETE SI,S FROM sgj_ariquizstatisticsinfo SI LEFT JOIN sgj_ariquizstatistics S
  ON SI.StatisticsInfoId = S.StatisticsInfoId
WHERE
  SI.Status = "Finished" AND SI.EndDate IS NOT NULL AND DATEDIFF(UTC_DATE(), SI.EndDate) >= 1

I used the EasySQL module, and it worked, now the list is manageable ;)

I am regret!

Is it possible to add the option "Not Save Statistic" in "Quiz Add" or "Quiz Update" windows if the quiz don'
"Show Full Statistics", "Show correct answer", "Show explanation", "Auto send mail" and "Results
