Use of license in demo site

I think your application can be the perfect solution for our needs. But before I install it on my production site I always test it in our demo site. Reading your license terms you only give a license per domain. Can I request to have this license "moved" from the test to the production site?

Thank you,

Hello,

Thank you for your interest in our product. We can provide additional license for demo site without problem.

Regards,
ARI Soft

Thank you, that will certainly help me, specially to ensure the component doesn't have any conflicts with other components.
