paginator theme problem
Posted by mohanned2012 - 2013/02/04 08:01

_____

i had just installed the paginator and i wanna use it on my homepage ....the problem that the module does not change from an article to the other one when i chosen auto rotation the button moved from one to the other and the article remain the same ...i am working on local host enviroment on joomla

_____

Hello,

It can be a javascript conflict with 3rd party extension or site template. Could you send screenshot(s) of module settings page by email and check browser's error console (press Ctrl + Shift + J in FireFox browser). It can contain error(s).

Regards,
ARI Soft
