Padding Around Content

Posted by kokoruz - 2010/08/02 22:00

———————————————————————

I noticed in my project as well as in the demo that the left padding/margin produces a gap of 25px but the right side is 35px. What in the css would be edited to have both the left and the right be even.

Download and upgrade 'ARI Paginator' module, please. It should help resolve padding issue.

Regards,
ARI Soft
