Change Date Format

Posted by RSNews - 2011/03/01 18:22

I am using the {\$created} variable to add the date to the end of articles display.

The date is appearing in "2011-02-18 08:00:00" format. I would like the date to appear "Tuesday 25 January 2011". The regular date formatting language/en-GB/en-GB.ini file does not appear to have any effect. There does not appear to be any date formating in language/en-GB/en-GB.mod_arieasyslider.ini.

How to I change the date format for Ari Easy Slider?

Re:Change Date Format Posted by admin - 2011/03/01 20:51

Hello

Use the following code:

{\$created|date format:%A %d %B %Y}

instead of:

{\$created}

All available date time format parameters can be found here.

Regards, ARI Soft

That worked great!

Thank you for such prompt and effective support!
