Slide content is not showing for me. The system plugin is active.
Under Articles, I selected my category and specified the article numbers.  I put {\$fulltext} in the template tag.
I just get a blank area, nothing shows up except a bullet?
Obviously something is going wrong, but I'm not sure what to even check.
I just want to fade the full text of articles.

Thanks.

Hello,
Could you provide a temporary access to your J! backend by email so we can investigate an issue?
Regards, ARI Soft
Re:Nothing showing Posted by tommiuz - 2012/03/28 21:27  I have the same problem
