Absolute Positioned Elements Placed on Last Slide
Posted by elit - 2014/11/06 19:29

_____

Hello!

I'm having an issue where all absolutely positioned elements are falling on to the very last slide in the slider (regardless of article).

Is there any way I can stop this from happening?

http://baker.waynebank.com/index.php/properties-for-sale

Thank you!

_____

Hello,

Add the following CSS rule to a site template CSS file:

.es-news-item-in {position:relative;}

Regards,
ARI Soft

_____

Perfect, thank you! That makes sense now that I think of it.

_____

One last thing if you wouldn't mind;

Migrated / updated my site to a second test site, now my modules for ARI plugins are not loading.

http://baker.waynebank.com/mmp_upgrade/index.php/contact-us
compared to
http://baker.waynebank.com/index.php/contact-us

Accordian is enabled, Content - Load Module is enabled.

Any ideas?

Thanks again.

_____

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft
