
Fade Effect

Posted by snappycreations - 2011/03/24 13:12

Hi,

Is it possible to add a fade effect to ARI Easy Slider? The module itself works great but doesn't do exactly what I need as it has to fade rather than slide.

Thanks :)

Tom

I would also use the fade option.

Hello,

"ARI Easy Slider" v. 1.3.2 supports "Fade" transition effect.

Regards,
ARI Soft
