## CSV file impossible to save path to .csv file

Posted by Bartalbert - 2011/02/24 20:49

---

Joomla 1.6, last version of data tables, firefox browser.

When entering the path to the .csv file (data/data.csv) and having used the settings mentioned in a previous thread, it appears that after saving the settings the path box clears. The path to the file is gone. I use the normal settings for the files (664 and maps 755). Changing the settings to 755 for the files of the component, does not help.

Please advice me...

Check that "System - ARI Extensions" plugin is installed and enabled.

Regards,  
ARI Soft

Sometimes things are that simple.....

Thanks. It works.
