Bug Ari DataTables and Plugin Ari Sexlightbox
Posted by waidu - 2011/05/05 10:14
_____

IÒ'm using Ari DataTables on my page to read an csv-file.

Now iÒ've installed Ari cloudCarousel and the plugin of sexylightbox to open the images.

now iÒ've recognisted, that the data table doesnÒ'work anymore.

Fatal error: Call to undefined method AriHtmlHelper::linkifyContent() in
/var/www/web825/html/modules/mod_aridatatables/tmpl/genhtmltable.php on line 119

Need some help ...

_____

Hello,

Download and upgrade "ARI Sexy Lightbox" module, "ARI Data Tables" module and "ARI Cloud Carousel" module.

Regards,
ARI Soft

_____

IÒ've downloaded all three parts in this week. I donÒ't know if there is any effect ...

IÒ'm using Joomla 1.6.3

HereÒ's the Link:
http://web825.webbox180.server-home.org/vorstandschaft.html
(Carousel and Lightbox)

And datatables should shown on
http://web825.webbox180.server-home.org/mitglieder.html

First of all: Thx for your incredible fest help!

But now iÒ've another problem with Ari DataTable:

When i fill in the location of the csv-file, in website appears "no data available".

IÒ've uninstalled and installed the mod a few times, but the bug is still there ...   :huh:

_____

Could you provide screenshot of module settings page or temporary access to your Joomla! backend and link to page where we can see the problem by email?

Regards,
ARI Soft

_____

"System - ARI Extensions" plugin was not installed on your site. We installed it. Configure "ARI Data Tables" module again please. It should resolve the problem.

Regards,
ARI Soft

Thanx a lot!
Best service IÒ've ever seen!

IÒ've installed ari extensions and uninstalled to upgrade - yes - IÒ've forgot it!

Thanx again! This will for sure not the last time, that I bought a product of your company!
