## Editing Capability?

Posted by jadamowsky - 2011/06/01 18:20

---

Is there any editing capability to the tables once loaded?

---

The modules can show data in read-only mode only.

Hello

Do you have any plans to add editing ability in some future?

If yes, any approx ETA?

I'm using ADT for displaying user stats from my custom Joomla mysql table, and I would like to be able to delete it as admin.

Regards

Hi

I've asked about ETA because I've seen several topics with same question, so users would definitely benefit from it.

Thanks for super quick reply :)

Regards
