
tried real hard but cannot get to work

Posted by formad - 2011/06/09 07:29

Hello cannot get it to work ari data table

demopage, module World Wide Service Network (A to G) en plugin

<http://www.jivana.eu/netwavesystems/index.php/company/test34>

<http://www.jivana.eu/netwavesystems/cvs/a-g.csv>

i can mail an backen account, jus where to.

kind regards matthijs

Hello,

Switch WYSIWYG editor to plain text mode and enter plugin code again. If it doesn't help, provide temporary access to your Joomla! backend by email please.

Regards,
ARI Soft

Could you provide temporary access to your Joomla! backend by email that we can investigate the problem?

Regards,
ARI Soft
